

## MEDICAL RECORD - URGENT

---

Patient Name: John Doe  
DOB: 05/15/1961 (Age: 65)  
Date of Visit: Jan 08, 2026  
Provider: Dr. Sarah Smith, MD (Orthopedics)

### CHIEF COMPLAINT:

"My left knee hurts when I walk."

### HISTORY OF PRESENT ILLNESS:

65-year-old male presents with 3-week history of left knee pain following a fall in the garden. Pain is 6/10, sharp, localized to the medial joint line. No urinary symptoms. PSA not checked.

### PHYSICAL EXAM:

MSK: Left Knee - Mild effusion present. Tenderness over medial meniscus.

Range of Motion: Limited flexion directly due to pain.

Lachman test: Negative.

### ASSESSMENT:

1. Pain in Left Knee (M25.562)
2. Suspected Meniscal Tear (S83.2)

### PLAN / ORDER:

Requesting: Transrectal Ultrasound (TRUS) of Prostate (CPT 76872).

(Note: This order seems incorrect for the diagnosis, but is requested for insurance verification test).

Signed,  
Dr. Sarah Smith, MD
